

How We Got Here And Where We Are Going

The Gospel that has been sent to the four corners of the earth has now come back to the places where it originally was sent out. The mission field has become a mission force. The Church is witnessing an unparalleled move of God throughout all the nations of the world.

Billion Soul Summit, Orlando, Florida

In January 2002, the Billion Soul Network was launched in Orlando, Florida. More than five thousand pastors and leaders came from all fifty states, every province in Canada, and more than twenty nations around the world. A God-sized goal was established to help plant five million new churches for a billion soul harvest in our generation. The spine of this vision was to pull together the finest teachers and training and make it available worldwide through Internet technological devices.

As the Billion Soul Network was launched, it was released and unfolded in several different phases. The first phase is what is called the **Discovery Phase**. Dr. Elmer Towns, cofounder of Liberty University and dean of the Global Church Learning Center, has often said, "You'll never know something new until you learn something new." Leaders went out and hosted Billion Soul Summits in every major world region. More than ten thousand leaders joined us in these summits.

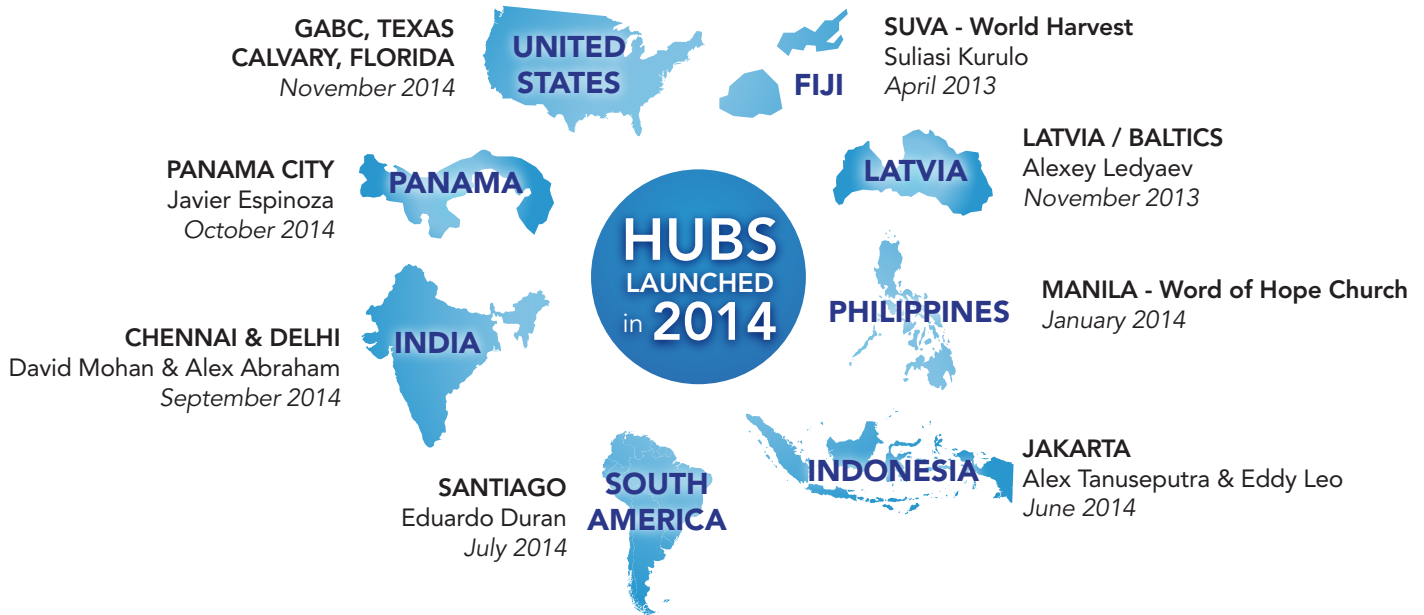

**GLOBAL CHURCH
LEARNING CENTER**
PART OF THE BILLION SOUL NETWORK*

On the heels of the discovery phase came the **Development Phase**. In the development phase key men and women were carefully listened to as they articulated the training subject needs throughout the Body of Christ. Out of this development phase came what is called the Global Church Learning Center (www.gclc.tv). The Global Church Learning Center is comprised of five major categories: leadership development, global missions, church multiplication, evangelism and discipleship, and visionary networking. Out of the Global Church Learning Center came the *Global Church Training Curriculum*, comprising the top thirty nonnegotiable courses for every pastor and Christian leader in the world today.

HUBS Launched in 2014

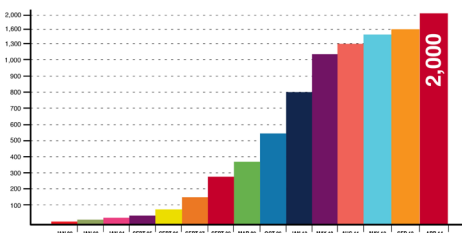

As BSN continued in the development phase, leaders moved into the **Distribution Phase**. The distribution phase was the streaming technology and the relationship development that took place over a long period of time, so that the training content is now made available online, on-ground, and on-time. Each course is designed to have fifteen sessions of approximately six to seven minutes each. Teachers were not asked to teach everything they knew about a particular subject, but rather to instruct the best they had learned about that particular subject.

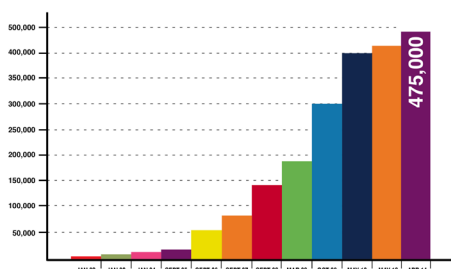

Global Teachers in Local Churches

BILLION SOUL Networked Organizations

Networked Churches

In 2013, Billion Soul Network began to execute the **Deployment Phase**. The deployment phase is what we call the Global HUBS of Christianity. If you want to know what God is up to, just look at what He's raised up! From that point until today, BSN has determined to seek out those leaders whom God has raised up throughout the earth and tie relational knots with them and others for the largest harvest possible. The Global Church Training Curriculum and the Global HUBS of Christianity go hand in hand as the strategic vision goes forward into the future.

There are three overarching outcomes for a Global HUB. First, a HUB **synergizes the best relationships**. Second, it **systematizes the best training**. Third, it **strategizes for the unreached people groups in the area**. A HUB is a real place where men and women come together to synergize, systematize, and strategize in their region.

Every two years, a new group of pastors and leaders register for the training that will be taught in the HUB. Every six months, they return to that location to be taught eight to ten courses from the top thirty courses in the Global Church Learning Center. In less than twenty-four months, they will have been taught thirty courses and will be empowered to go out and fulfill their divine destiny in their generation.
